Hello
My name is Felecia Moon. I am a resident of the Town of Waywayanda.
I would like to express my feelings about the projects off of Dolson Ave. on Dolsontown Rd. RE: Marangi and the other projects with warehouses and etc. (Approximately 500 trucks per day to drive on that roadway and surrounding roadways?)
I am firmly against these projects for a few reasons.
1) the impact on our ecosystem
2) the impact on our air quality
3) road traffic and an increased carbon imprint with all the trucks that will be using our roadways
4) noise pollution
5) public safety
6) destruction of historical land
7) devaluation of property
8) long time residents being pushed out of their homes that they worked so hard for all their lives.
These are just a few things that come to mind. None of these things can be ignored or pushed to the side. Our commitment to ensure safety and quality of life to our community has to come first! Not the greed of special interest groups getting kickbacks. CVP was enough for me thanks!
