Greetings neighbors,

I am a resident and homeowner in the town of Greenville and my son is a recent graduate of Minisink Valley High School.

Our area really needs our towns of the Minisink Valley School District to work together towards a better community.

Turning the area along route 6 into an industrial park is not what we need.

Traffic in our area is already congested, and taxing our infrastructure with more large garbage trucks or tractor trailers is not what we need.

Furthermore, protecting our school busses by not making them share the roads with these trucks is imperative.

We live in a beautiful area, with farms, wetlands, scenic countryside and native animals and these gifts need to be protected for our kids to enjoy for generations to come.

My home is my greatest financial investment.

I chose to invest in this community right before the CPV bamboozle. Now my eyes are open and I won't be hoodwinked again.

Protecting the area, so that it is a place people want to live, is crucial to protecting the investment residents like myself who have chosen to live here made in the communities making up our school district, including Wawayanda.

Those of us raising our families here, and investing in the area by buying homes here deserve better than a dump. We deserve better than a fracked gas power plant polluting our air and endangering our school. We deserve better than the tax break Medline received before they cut and ran as it came time to actually pay their fair share.

This is my community.

You were entrusted with protecting it.

Time to start doing so.

Angela Freda  
Resident  
Town of Greenville
