**Subject:** Planning Board Dolsontown project

Town of Wawayanda Planning Board  
Secretary Stacey Daley-Wilkins

Once again the Wawayanda Planning Board is permitting the sale and utilization of polluting projects on, at, or over a wetland or aquifer water source.

One has to wonder if this is myopic planning or corrupt planning. Whichever it is, it does not take into account the fragility of the land, the brutality of the project, or the density of the nearby population.

Orange County, Middletown was slower to develop than the counties to the south. I always believed that pause gave the county, the Zoning and Planning Boards the time to consider the mistakes south of us and develop with more insight and forethought, learn from the mistakes, plan a better community. Bad and careless judgement prevails repeatedly by the Wawayanda Planning Board.

-Sharon Kasow
